

# Dem-Con Recovery and Recycling

## November 2017 LEED Report

Dem- Con Recovery and Recycling is dedicated to the recovery of construction and demolition debris. Our facility utilizes a mechanized sorting system to recover six different materials: ferrous and non-ferrous metals, cardboard, wood, aggregate, and alternative daily cover (ADC). A combination of equipment and manual sorting results in high quality materials being sent to end markets throughout the Twin Cities and greater Minnesota.

### Certified Recycling Facility

Dem-Con is proud to be certified by the Recycling Certification Institute. This third party certification ensures our customers that Dem-Con’s recycling numbers are real, accurate, and reliable. An additional LEED credit is available to haulers that utilize our facility.

**Ask how you can receive 1 extra LEED point when using our facility.**

Material Recycled	November	Year to Date
Line Residuals	26.99%	29.15%
ADC	31.45%	23.55%
Cardboard	1.10%	1.23%
Wood	17.99%	17.40%
Aggregate	9.06%	6.66%
Steel	3.90%	5.47%
Other Metals	0.17%	0.25%
Shingles	9.34%	16.29 %
<b>Total Recovered</b>	<b>73.01%</b>	<b>70.85%</b>

### Recovered materials are delivered to the following facilities:

- New Ulm Steel  
218 19th St.  
New Ulm, MN 56073
- Koda Energy  
800 1st Ave. W.  
Shakopee, MN 55379
- LDI Fibers  
13500 Liberty Lane  
Becker, MN 55308
- Dem-Con Shingle Processing  
13020 Dem-Con Drive  
Shakopee, MN 55379
- Final Grade  
3441 Bluff Drive  
Jordan, MN 55352
- Dem-Con Metal Recycling  
13142 Dem-Con Drive  
Shakopee, MN 55379
