

# Dem-Con Recovery and Recycling

## September 2017 LEED Report

Dem-Con Recovery and Recycling is dedicated to the recovery of construction and demolition debris. Our facility utilizes a mechanized sorting system to recover six different materials: ferrous and non-ferrous metals, cardboard, wood, aggregate, and alternative daily cover (ADC). A combination of equipment and manual sorting results in high quality materials being sent to end markets throughout the Twin Cities and greater Minnesota.

### Certified Recycling Facility

Dem-Con is proud to be certified by the Recycling Certification Institute. This third party certification ensures our customers that Dem-Con's recycling numbers are real, accurate, and reliable. An additional LEED credit is available to haulers that utilize our facility.

**Ask how you can receive 1 extra LEED point when using our facility.**

Material Recycled	September	Year to Date
Line Residuals	22.45%	29.81%
ADC	23.76%	22.21%
Cardboard	1.17%	1.28%
Wood	12.30%	18.12%
Aggregate	5.09%	6.43%
Steel	5.34%	5.92%
Other Metals	0.15%	0.28%
Shingles	29.74%	15.95%
<b>Total Recovered</b>	<b>77.55%</b>	<b>70.19%</b>

### Recovered materials are delivered to the following facilities:

- New Ulm Steel**  
218 19th St.  
New Ulm, MN 56073
- Koda Energy**  
800 1st Ave. W.  
Shakopee, MN 55379
- LDI Fibers**  
13500 Liberty Lane  
Becker, MN 55308
- Dem-Con Shingle Processing**  
13020 Dem-Con Drive  
Shakopee, MN 55379
- Final Grade**  
3441 Bluff Drive  
Jordan, MN 55352
- Dem-Con Metal Recycling**  
13142 Dem-Con Drive  
Shakopee, MN 55379
