

Green Grades Education Program

What We Do

Dem-Con Companies provides recycling education opportunities to area schools. To equip students to make responsible decisions regarding their waste, we explain why certain materials do or do not belong in the bin and show what happens to those materials after they are picked up from home or school.

Who We Are

Dem-Con is a recycling, processing, and disposal company located in Shakopee. We believe not only in the importance of processing and disposing of waste responsibly, but also in the importance of teaching community members how they can contribute to this process.
