

# Dem-Con Recovery and Recycling

## August LEED Report

Dem- Con Recovery and Recycling is dedicated to the recovery of construction and demolition debris. Our facility utilizes a mechanized sorting system to recover six different materials: ferrous and non-ferrous metals, cardboard, wood, aggregate, and alternative daily cover (ADC). A combination of equipment and manual sorting results in high quality materials being sent to end markets throughout the Twin Cities and greater Minnesota.

### Certified Recycling Facility

Dem-Con is proud to be certified by the Recycling Certification Institute. This third-party certification ensures our customers that Dem-Con’s recycling numbers are real, accurate, and reliable. An additional LEED credit is available to haulers that utilize our facility.

**Ask how you can receive 1 extra LEED point when using our facility.**

Materials Managed	August	12-month average
ADC	22.98%	23.81%
Cardboard	0.06%	0.23%
Wood	14.14%	15.39%
Aggregate	1.40%	3.22%
Steel	3.59%	4.20%
Other Metals	0.21%	0.23%
Shingles	32.96%	24.36%
<b>Total Recovered</b>	<b>75.34%</b>	<b>71.44%</b>
Line Residuals	24.66%	28.56%

Recovered materials are delivered to the following facilities:

New Ulm Steel  
218 19th St.  
New Ulm, MN 56073

Koda Energy  
800 1st Ave. W.  
Shakopee, MN 55379

LDI Fibers  
13500 Liberty Lane  
Becker, MN 55308

Dem-Con Shingle Processing  
13020 Dem-Con Drive  
Shakopee, MN 55379

Final Grade  
3441 Bluff Drive  
Jordan, MN 55352

Dem-Con Metal Recycling  
13142 Dem-Con Drive  
Shakopee, MN 55379
