SHINGLES	22.06%	28.63%
TOTAL RECOVERED	71.34%	76.60%
LINE RESIDUALS	28.66%	23.82%

Dem-Con Recovery and Recycling is dedicated to the recovery of construction and demolition debris. Our facility utilizes a mechanized sorting system to recover six different materials: ferrous and non-ferrous metals, cardboard, wood, aggregate, and alternative daily cover (ADC). A combination of equipment and manual sorting results in high quality materials being sent to end markets throughout the Twin Cities and greater Minnesota.

WE ARE A CERTIFIED RECYCLING FACILITY

RECYCLING CERTIFICATION INSTITUTE

Dem-Con is proud to be certified by the Recycling Certification Institute. This third party certification ensures our customers that Dem-Con's recycling numbers are real, accurate and reliable. An additional LEED credit is available to haulers that utilize our facility.
